Reorienting the NHS towards prevention — Session 1

THE NEW
**NATIONAL
HEALTH
SERVICE**

*

**Your new National Health Service begins on
5th July. What is it? How do you get it?**

It will provide you with all medical, dental, and nursing care. Everyone—rich or poor, man, woman or child—can use it or any part of it. There are no charges, except for a few special items. There are no insurance qualifications. But it is not a “charity”. You are all paying for it, mainly as taxpayers, and it will relieve your money worries in time of illness.

Figure PVB-L1.1 — Original 1948 NHS leaflet

Figure PVB-L1.2 — London's 5 ICS map and ICS = ICB + ICP structure

Figure PVB-L1.3 — Two dimensions of population health (level + variation)

At present we have a whole “Public Health” system that sits largely outside the NHS.

Figure PVB-L1.4 — Three models of public health and delivery integration

Figure 2. Relation between healthcare resources and health

Figure PVB-L1.5 — Donabedian curve: healthcare resources vs health benefit

Figure PVB-L1.6 — Low vs high resilience: walls and recovery functions

The EPRR cycle

Figure PVB-L1.7 — EPRR cycle (risk management + crisis management)
